ELECTRIC

***change***

The only constant is change

Strong power

Very portable

Can drive far away

Why is it for you?

---

Unrestricted action and more convenient and free life

ZHONGCHUN ELECTRIC

Enjoy the fun of life

Boneng

## Our advantage

It can be connected with most of the manual wheelchairs very quickly and easily. Just need a simple operation to connect the trailer with your wheelchair so as to make your manual wheelchair electric.

It can be connected to  
most manual wheelchairs

# Separation is fast

When you needn't use it or once battery run out, it's easy to separate the trailer from your wheelchair in a few minutes and remain the manual wheelchair's function. The trailer make the connection of manual wheelchair and electric one to become realization .

It is very convenient to disassemble and install
